(now rich)

jumped out of bed and run through the door

good morning world

jumped through a fence

and got chased furthermore

by two

or even punk

it is a mans world
and no amnesia is allowed
it is a mans world
with lots of violence
power n symbolism

it is a world with lots of sirs
the sir demands his satisfaction
some things are true
but some things are a fucking lie!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

it is a mans world
indeed
i walk the streets restrained
and when i come home
i bang my head on the wall
until there is lots of blood on the floor.
now dance

bring me her
dead or alive
i take her home
i get her in a zone
i take her clothes off
then i take a picture
like love like silk
look at me
look at my teeth
look who i fuck
look who i kiss

I'm back
you know that
you know that and i know that too
I'm looking at your picture girl
you look like a cute girl
everyday i go to the shower
you pass by my mind
hey i didn't know you before
you on my mind
every time i go to the bed girl

cash on the table
lets move them to the bags
lets throw bags in a buss
careful carefully
something may break
lets drive to another house
melt the ice in the room
now it is steamy
now you don't see me
surveillance is watching us
in our house
now we have time
take some distance
from the 7 million

organic
delicate
fragile
transparent
what is this white powder
can we collect it

i once told the truth n
i got shot in my chest for it
later days after the recovery
i got paid n
i spy a lot for it
cannot look anymore
many times i wanna switch off
keep on watching
what if i miss little something
and cannot revert
goddam goddam
recent events gross me out
and i gag in fancy extra expensive cars
lux lux luxiry

what should i feel when someone is under my feet
licking my toes baby?
n then asks for my money baby?
i wanna take your life
i wanna take my life
let us both go free
maybe there should be no fear in death
when you been murdered
for something right you once said?
watch my body
its capable of many poses
it is capable to bleed out for hours
until its empty but will it become shallow?

when I'm with you
I'm a different version
upgraded updated to 6.6 r
i m sitting down
i lift a bottle
everybody wants to sing in here
i fill your palms
i take a sip
i lick your finger
u wipe my chin with it
tonight i shave my tools
because i plan to kiss with you
trying my best to be
a tuff boy
when i am a boy tool
toy
released from a cardboard
speak loud
talk my speech
I laugh louder
so everyone would think I
it s I and I
it is me
about me
beautiful ladies
stay in my house
they expect sex
from a tuff boy like me
but somehow your click click click click with me

so let me tell you a story
i came to a party

and it was so fucking silent
it was only me David and Bararrdady
i couldn't stand the silence
so i kept drinking
i kept dancing
i kept flirting
when the lights switched down
i had to lay down
I was drowning
in the dark
and to be honest
I still don't know if I am around
if i came home
or am I gone

whoever wins i kiss that beast
bring the girls out
the dogs will bark
somewhere you never been but somewhere where i grew up
in my old yard
let there be a wild fight
a girl against a dog
who kills who
who kills who who kills who
a girl against a dog
not saying it is right
just claiming it is entertaining me much
something i haven't seen before
something i wouldn't miss to watch through my phone screen

dark dark dark
but not this time
legs wide spread
i see everything inside
lights come from the ceiling
a circle of light on the floor
red curtains open
music
he pays attention
to my legs
i pay attention to his lips
a wide smile on my face
this is how sensuality feels
bodies hit the red velvet walls
tonight anything sexual can happen

money makes a world
go round and water spin
money will make you dance
and water will make you thirsty
you will have to compromise
and it is how it is
but

in my room what are you doing tonight
do you wanna come by to my room tonight
in the club
i am
I'm a gIANT eye
this bitch wants you
i hope she fucking gets you
i hope you fucking take her home
i hope u fuck her right

an unicorn came to the parliament
and opened fire
it shoot everyone
bullets everywhere
pain everywhere
the news are already on it
you can read online

fairytale of art:
make art burn art
take art burn art
buy art burn art
hang art burn art
hang art burn art

scratch art burn art
talk about art burn art
what does this mean to you
what does this mean to me
not very classical art
not very familiar with art

death is like blue ocean
very very blue
a blue car
and its silent in the car
and you never know if theres anyone in the car
i havent been close to the car
but theres water in the car
because i see it leaking
must be snow
white fox beats the fence
right now it is running through the city
after 7 years
it escaped
the little cage
the stinky hands
the bad breath
dirt trash repression
white fox in a field
running through the snow
it has still some city dirt
